**Service Description**

<p>Our services are mainly for young people aged 0-15 years and their families who live in the Western and Northwestern metropolitan regions of Melbourne. We generally see infants, children and adolescents with the most severe and complex mental illnesses. There are a range of other places you can access for mild to moderate difficulties and illnesses. See our community resources sections for <a title="children" href="http://www.rch.org.au/mental-health/for\_children/#mental-health-child-resources">children</a>, <a title="adolescents" href="http://www.rch.org.au/mental-health/for\_adolescents/#mental-health-adolescent-resources">adolescents</a> and <a title="parents and carers" href="http://www.rch.org.au/mental-health/for\_parents\_and\_carers/#parent-caregivers-mental-health">parents and carers</a> more details. We also have a range of statewide services that young people up to the age of 18 may be able to use too. It is best to check with our Intake (Triage) Team to be sure.</p> <p>A general rule is if you need our help:</p> <ul> <li>our hospital-based services (at the Emergency Department; on a ward; or as regular psychology outpatient where you may or may not have another medical condition) are available to you if you live anywhere in Victoria, Tasmania or southern New South Wales</li> <li>our outpatient services are generally available to you if you live in our metropolitan areas listed above.</li> </ul>
